

Andy Barr – Anti-worker and Anti-constituent Legislation

Andy says he wants to help Kentucky workers. So why has he:

1. Co-sponsored two separate right to work laws and passed one that would lead to lower worker wages.
HR 2723 & HR 785
2. Co-sponsored legislation to allow drug testing of unemployed workers
HR 42
3. Co-sponsored legislation to end Federal collective bargaining agreements requirements with workers
HR 1552
4. Co-sponsored legislation to place limits on how long workers can receive social security disability.
HR 1540
5. Co-sponsored legislation so coal owners don't need to report mining health and safety violations in SEC filings
HR 4289
6. Co-sponsored a financial deregulation bill permitting abusive financial practices of customers
HR 10
7. Co-sponsored legislation giving financial institutions a right to impose forced arbitration on customers.
HJR 111
8. Has NOT supported increasing the minimum wage of workers.
9. Voted and passed a tax bill that raises workers taxes after 10 years, while cutting them for the richest.
HR 1
10. Voted twice for a health care bill stripping health care from thousands of his working constituents.
HR 1628

Barr, supports the interests of his donors, not the interests of Kentucky workers or Constituents.

Visit Congress.gov and check them out for yourself. Each and every bill was partisan legislation that would hurt Kentucky workers and Kentucky Constituents, not improve their lives.
